MRUNAL SHINDE

Computer Engineering Student | *Aspiring Software Developer / IT Professional*
Pune, India (412105) | 8669964260 | shindemrunal130605@gmail.com | linkedin.com/in/mrunal-shinde-769538246

SUMMARY

Motivated, detail-oriented Computer Science Engineering student (CGPA 9.57) with a Computer Engineering diploma and a strong foundation in Python programming and software development. Hands-on experience in cloud computing, cybersecurity training, software testing, and sensor-based embedded systems, with proven leadership as Student Council General Secretary. Seeking an internship or entry-level role as a software developer or IT professional.

EDUCATION

B.E. in Computer Science (Pursuing) | Navsahyadri Group of Institutions, Pune — *CGPA: 9.57*

Diploma in Computer Engineering | JSPM Polytechnic — *80.57%*

SSC (Secondary School Certificate) | Sant Sai School, Bhosari, Pune, Maharashtra — *70.80%*

TECHNICAL SKILLS

Programming & Web: Python, HTML, CSS, JavaScript, MySQL
Cloud Computing: Cloud concepts, service models, virtualization
Cybersecurity & Networking: Cyber Security, Wireshark, Cisco Packet Tracer
Engineering Practices: Software Testing (test cases), Sensors, Microcontroller Programming
Tools: Power BI, Replit, Canva, Claude, Gemini
Professional: Communication, Team Collaboration, Leadership, Quick Learner
Languages: English, Marathi, Hindi

INTERNSHIP EXPERIENCE

Cloud Computing Intern, Kasnet Technologies (Microsoft Global Certification Program) — *Jan 2026 - Apr 2026*

- Completed a 3-month internship covering cloud computing concepts, service models, and virtualization.
- Performed hands-on, industry-oriented cloud activities and studied real-world applications of cloud technologies.
- Successfully completed the program and earned the Microsoft Global Certification.

PROJECTS

Smart Agriculture Equipment Rental System (Final Year, Ongoing) — *Python, JavaScript, HTML, CSS, MySQL*

- Developing an app-based platform that enables farmers to rent agricultural equipment efficiently.
- Building an AI-based recommendation feature that suggests suitable equipment based on crop type, land size, season, and farming requirements.

Drowsiness Detection System using Smart Goggles (Diploma Final Year Project) — *Sensors, Microcontroller*

- Designed and developed a driver safety system using custom-built smart goggles; programmed the microcontroller in Bromine IDE to trigger a buzzer alert when the driver's eyes stay closed for more than 2 seconds, helping prevent accidents.

Smart India Hackathon 2025 - Smart Innovation for Disaster Management

- Participated in the national-level hackathon, working on a technology-driven solution for disaster management.

LEADERSHIP EXPERIENCE

General Secretary, Student Council | Navsahyadri Group of Institutions

- Organized technical events, workshops, and student activities; coordinated volunteer and event management teams.
- Improved communication between students and faculty while strengthening leadership, teamwork, and organizational skills.

ACHIEVEMENTS & CERTIFICATIONS

- Organized a national-level hackathon at college (Quantum Arena 1.0), 2025-26.
- Participated in Smart India Hackathon and IIT Bombay Hackathon.
- Certifications: Cloud Computing; Microsoft Global Certification (Kasnet Technologies); ICEASTI 2026 Certification; Cyber Security Training Completion, Naviotech Solutions (Feb 2026 - Mar 2026).
